Spring Grid Drills Delayed; Outlook Hopeful to Coach

Annual Spring Football drills at Elba High School not underway Monday of this week as a large number of candidates greeted Coaches George Grider and Ed Comer. Plans had originally been to delay practice session for at least a week due to the State Basketball Tournament, but Alabama High School rules would not allow the postponement. Members of the basketball team will miss the first week of drills. They include tackle Harold Hudson, and Marion Holloway, quarterback Looker, and halfback Jimmy Max Layton, end Johnny Holley.

Coach Grider and his assistants are looking forward to one of the best spring drills in many years with a number of letterman and experienced reserves returning for another year of action for the local eleven. The outlook is good for a top-notch team at the local school next season. The Tigers finished the past year with a 5-5 record, their best since the undefeated 1955 season. Most of the lettermen lost this year were backfield starters, but a number of able second stringers return to join holdovers.

Backfield Free in next year's backfield. Also, a beefy forward wall is back, led by All-SEC center Bob Ingram and guard Mickey McCollough who was both All-SEC and All-State this past year.

Spring drills will begin Monday afternoon and will be climaxed at the end of a three-week period by an intrasquad Black and Gold game.

Gamecocks Lose In Class A Tournament

Coach Bryant Steele's New Brockton Gamecocks, champions of the Second District, Class A, were eliminated from the State Tournament last week by Pricville High School, which later went on to win the state championship. The fighting Gamecocks went down in a thrilling battle, 2 to 51.

The Coffee County entry got off to an excellent start in the first round, trouncing Mount Hope to the tune of 60 to 38. Tommy Steele led his team to victory with 34 points.

Pricville's Montie Sharpe, bucketing 25 markers, paved the way to Brockton's downfall Friday afternoon in a close contest which saw New Brockton come from behind in the last quarter only to lose on a field goal with only 3 seconds left on the clock. Montie led his team in scoring with 17 points and Tommy Steele, who fouled out in the last half, had 13 points.

The Gamecocks placed one man, Steele, on the All-State team.

Kinston Graduate Gets U. of A. Award

Gus Farris, a 1960 graduate of Kinston High School, was awarded the Honorary Merit Award at the University of Alabama for maintaining a high scholastic average in his studies. The award was presented to Gus by the AFFCO Wing Department at the Capstone. A second award was also given on the basis of attendance.

Gus is the son of L. A. Farris of Elba and a sophomore in the college of Arts and Sciences majoring in Pre-Med. He is also on the nursing staff at Druid City Hospital in Tusculum.

Besides awards, Gus is being considered for a scholarship and a number of the Honors Program starting this fall.

Rabid Foxes Found In Coffee County

A sharp increase in the number of rabid foxes in Coffee county was reported this week by the County Health Department.

"We have these outbreaks periodically throughout the state," the report said. Here are a few precautions that may be taken that could save the life of your dog or even your child:

During the night hours, keep your dog penned, out of reach of any animal, if possible.

Be sure your dog has been vaccinated in the past year. Do not allow any strange dog in your yard.

Kill every fox you possibly can.

If your dog should be bitten by a fox or receive any injuries you cannot account for, contact your veterinarian immediately.

If you should be bitten by a strange dog or fox, see your doctor.

Personal Freedom Is The Keynote

An archeologist, exploring the ruins of the cradle of civilization between the Tigris and Euphrates, came upon a stone tablet bearing these words:

"I am Sargon, Sargon, the great king am I! My mother is a memory, my father I knew not! I trained for life as a gardener! My work as a gardener was pleasing unto God and I became king!"

Emerson said that "Plato is philosophy, and philosophy is Plato," and it was Plato in his immortal "Republic" who observed that the most stable society is a pastoral society.

Those nations which have contributed most to advancement of mankind have been the nations which rested upon a foundation of farmers. Holy Writ of Christians, Jews and Mohammedans has come from a pastoral people. Greece and Rome grew to greatness with farm people as a foundation. Their greatest warriors, like Cincinnatus, were called from their plows.

Consider the English Magna Carta, the American Declaration of Independence, and the American Constitution! The Magna Carta was wrested from the wicked King John by English Barons, the gentlemen farmers of that day, who had the courage to defy both king and pope. The Declaration of Independence and the American Constitution were the work of a people primarily agricultural.

Throughout history, it has been the few who have had to bear the torch of freedom for the many. The great English writer Burke said: "But for the faithful few, evil would triumph." And throughout history it has been the pastoral peoples who have been in the front ranks of the few who contributed most to the personal dignity of the individual.

There is a very definite reason. The farmer has learned that the greatest gains come from individual efforts, so he is devoted to individualism as against the regimentation of various totalitarian systems.

A choice of farm life can mean the choice of great personal gain. The farmer who owns his own farm does not have to worry about loss of his job.

A series of clinics was sponsored by the Louisiana Bankers Association, the Louisiana State University, and the New Orleans Branch of the Federal Reserve Bank of Atlanta. These clinics developed that a young man can still become a farm owner without inheriting a farmer's daughter or inheriting a big bank account.

The clinics developed the group opinion that he must have enough patience to gain the farming experience and maturity that enhance his financial worth; he must accept a modest mode of living before he can own his farm; the road to successful farming can best be traveled by young men with specialized training in agriculture.

The 4-H boy or girl who chooses a lifetime on the farm may not only make the best choice to earn a living but there is a more important factor. In choosing the farm, a boy or girl will join that minority who love freedom most. And it has been the freedom-loving individuals who have always been the backbone of a great nation.

"My work as a gardener was pleasing unto God and I became king," said the great Sargon.

Elba Wins Berth In State Tourney

By BOBBY INMAN

The magic words, "State Tournament" became a reality for Elba High School cagers last week when they completely upset the dope bucket to gain a berth in the state tournament by rolling over three straight tough opponents in the Second District Class A A Tournament held in the spacious Enterprise High School gymnasium, only to lose in the finals by a single point.

Elba had one of the toughest uphill battles in the tournament. Abbeville, their first opponent, was fresh from winning the championship of the Wiregrass Conference. Kinston the quarter-finals opponent, had beaten Elba twice before in the regular season and was seeded fifth. Dothan had lost

only 4 games all season, held the Bi-State and Conference Tournament championships, and was seeded number one in the District class. But the Tigers put on one of the most awesome shows of basketball skill seen in local circles in many years as they rolled over all three before failing to Enterprise in the championship.

The Tigers meet Deshler High at Tuscaloosa in the first round of the state event today at 10 a.m. Deshler is the championship team from the Elkhart district of Alabama. This will mark the first time in six years that the Tigers have had a state tournament team. They went in 1954 and 1955. A number of local fans are making

the trip to Tuscaloosa. Abbeville is First. Abbeville's determined Bulldogs, seeded eighth, fell to a tremendous burst of speed in the last half as the Tigers took a second round victory and started the long road for a state bid. Elba took an early lead in the first frame, saw it cut to only three points, 26-23, at half, then roared back to stomp the Wiregrass Conference champs to the tune of 65 to 40.

Elba's two ace guards, Senior Ronnie Young and Junior Jimmy Holley, were the big guns in this victory, bucketing 17 points each to lead their team to victory. Both played excellent floor games in addition to their scoring chores. ARE GOOD VITAMINS MORE EXPENSIVE?

It is true that sometimes the dependable vitamins, made by the same reliable firms who supply us with our prescription drugs, do cost a little more than unknown brands. Vitamins made to sell for less eliminate expensive testing and research.

You can be certain the dependable vitamins we supply are not only potent, but that the designated ingredients are in purified form your body will absorb. Too often, some out-rate vitamins pass through the body with little benefit.

After Chamber of Commerce Meeting

Rabbi Isaac Neuman, of Temple Immanuel, Dothan, center, is seen here with President Oscar Vaughan, Jr., left, president of the Elba Chamber of Commerce, and the Rev. R. R. Hendricks, pastor of the Elba Methodist Church, as they engaged in good-natured banter after he addressed the C. of C. membership meeting. The rabbi, in his address, emphasized that a nation can have "unity without conformity" and that "a divided people is the greatest danger to freedom."

EXHAUST BENEFITS

More than 11,432 workers exhausted their unemployment compensation benefits in the last three months with an additional \$80 being added to the total each day. Ralph R. Williams, Director of the Alabama Department of Industrial Relations, stated today.

Rural electrification has brought about dramatic improvements in farming operations, and a better way of life for all. Yes, electrification of rural areas by Covington Electric Cooperative and other electric cooperatives, is helping to make farming a better way of life, and a more attractive and rewarding career for our fine young people. Divided Citizenry Called Greatest Danger to Any Freedom-Loving People

The greatest danger to a country's freedom and liberty is a divided citizenry, the Elba Chamber of Commerce was told last week, by Rabbi Isaac Neuman of Temple Immanuel, Dothan.

He appealed for "unity without conformity" as he spoke on the topic "Building a Stronger America", in relating the step-by-step process by which his native Poland lost its freedom in World War II.

Unlike Finland

"Why was Poland over-run by the Nazi hordes within a month while its little neighbor Finland could fight off the more powerful Russian Army for months and keep its independence?" the rabbi asked, then answered his own question.

"It was because the Finns were a united people while in Poland the Poles did not trust the Lithuanians, the Germans did not trust the Poles, and there was distrust between the Roman Catholic Church and a few minor Protestant churches."

"There are some things which the average American takes for granted: because it has always been like this, he says there is no reason why it should be different," then he recalled that in his youth the thinking in Poland was the same. "One day we lived in freedom, the next day there was the sound of marching Nazi soldiers in the streets," he said.

Appeals For Unity

He appealed for unity America rather than an "America divided, brother against brother, North against the South, East against West, because the struggle for freedom is a continuous one. Why don't we join hands before it is too late?"

Rabbi Neumann, who is secretary-treasurer of the Dothan Ministerial Association, was introduced by the Rev. Ralph R. Hendricks, pastor of the Elba Methodist Church. President Oscar Vaughan, Jr., presided.

The Chamber heard a report from Drexel Cook, chairman of the Elba Hospital Board, in which he expressed confidence that work on construction of the new hospital would begin between May 20 and June 15, this year.

Robert's total sales of \$31,100 led the field as the club set a new record high of \$2,200.11, to surpass the goal of \$2,200.00. Roger Winston Jr. was second high, followed by Don Boswell and John Norman.

The club crossed over \$900.00 which will be spent for school projects.

Plans for induction into the club of 25 new members are underway at the present and last week officers for the coming year were elected. They are: Mickey McCollough, president; Ronnie McDowell, vice president; Margaret Kendrick, secretary; Johnny Vaughan, treasurer; and Ann Waters, reporter.

If nitrogen was applied to small grains before the recent heavy rains, should I use additional nitrogen now?

This question is now being asked by many Coffee county farmers.

J. R. Speed, County Agent, says that if nitrogen used on a good stand of fast growing plants was moved into the soil by light rains before the heavy rains started, it probably won't be needed.

It is, however, nitrogen was applied immediately before the heavy rains and was not soaked in with light showers, the farm leader says additional nitrogen probably will pay off. Water runoff and leaching due to heavy rains may have caused a loss of half the nitrogen applied. This lost nitrogen needs to be replaced.

An additional application of 25 to 30 pounds of nitrogen per acre should be enough, recommends Speed.

State, county and city laws require the yearly vaccination of all dogs over three months of age. All dogs which have been vaccinated must wear a collar to which the rabies tag is attached.

Contrary to popular belief, rabies is not an easy disease to diagnose. Therefore anyone bitten should consult his physician and his veterinarian. These animals, if possible, should be confined for a 14-day period of observation. Under no circumstances should an animal that has bitten someone be killed before examination by a licensed veterinarian.
